!!!HOW TO BLOCK S*MIMALEK's WORKS!!!

by [gaygoat](#)

Summary

how to stop somimalek and dristanotfound's works from appearing - all credit goes to itsfallenfern as (i think) their work was deleted

-updating as of 7th may as i believe she updated them all a couple of days ago, sorry if this is annoying!

-nother update just in case people are still having this problem :)

See the end of the work for more [notes](#)

Chapter 1

1. go to your dashboard and go to skins
2. make a new site skin and copy/paste the following into the CSS:

```
.blurb.user-9263583 {  
display: none !important;  
}
```

```
.blurb.user-6501886 {  
display: none !important;  
}
```

3. give it a random title and make sure all required fields are filled in before making the skin, DONT FORGET TO PRESS 'USE'

this is to block all works from both somi and dristanotfound

if this doesn't work, try copying and pasting one part in at a time.

here is the shell of the command:

```
.blurb.user- {  
  
display: none !important;
```

ALTERNATIVELY:

on the dreamnotfound tag, under 'search within results', type -SomiMalek and/or -Dristanotfound to hide works from both accounts.

thank you to AestheticMermaids for this information!

have fun not suffering :)
